FOREWORD

Even though the trade (Export Import) data is made available by D/o Commerce on its website, no separate data was publicly available in respect of Special Economic Zones (SEZs) and Export Oriented Units (EOUs).

Commerce Secretary in his letter to Chairman EPCES dated 2.1.2023 (copy attached) advised EPCs for setting up of a Research Cell within the EPC that would regularly feed into policy inputs and to facilitate the EPCES to as a nodal point to frequently interact with the Department of Commerce and line Ministries /Departments.

Accordingly, EPCES set up a Research Cell and requested D/o Commerce to advice NSDL/SEZ Online and DGCIS to make SEZ and EOU data to EPCES. EPCES started getting EXIM data in respect of SEZs and EOUs from NSDL and DGCIS office.

This has enabled EPCES to start publishing monthly trade bulletin in respect of SEZs and EOUs. As the migration of SEZ units w.r.t. trade transactions from NSDL/SEZ online to ICEGATE started from July 2024, the partial data was available with NSDL/SEZ online and balance with DGCI&S, thus, there has been a delay in compilation of complete data from both the sources. After due examination by DGCI&S, the data has been made available till July 2025 in respect of SEZs and EOUs.

Based on the present data made available from DGCI&S, an attempt has been made by EPCES regarding publication of monthly trade bulletin regarding the monthly analysis of country-wise, commodity wise EXIM data. Data in respect of exports of Services has also been analysed. Based on the suggestions from stakeholders and the availability of data, the analysis will be further refined and presented.

EPCES is grateful to DGCI&S for making available the data.

NEW DELHI-110011

D.O. No. K-12011/1/2020-EPL1

2nd January 2023

Dear Shri Seth,

The global economy is innately tied to trade, and trade has grown remarkably, completely transforming the global economy. Moreover, about 70% of international trade today involves Global Value Chains (GVCs), as services, raw materials, parts, and components cross borders – often numerous times.

2. The emergence and persistence of GVCs significantly changes how we develop trade policy. Success in international markets today depends as much on the capacity to import world class inputs as it does on the capacity to export. As such, role of EPCs should not be limited to export promotion alone and it should look at trade in a broader and more comprehensive manner.

3. In this regard, we would encourage EPCs to closely monitor international trade, particularly export decline, import surge, market diversification opportunities, global import demand and prospects, and avenues for GVC participation etc.

4. EPCs may consider developing a Research Cell with more intensive research and market intelligence capabilities within the EPCs that would regularly feed into policy inputs and to facilitate as the nodal point to frequently interact with Department of Commerce and line Ministries/Departments.

5. I am looking forward to your timely response and continuous cooperation in this initiative.

With regards,

Yours sincerely,

[Sunil Barthwal]

Shri Bhuvnesh Seth
Chairman

EOUs

April - July 2025

HIGHLIGHTS OF EOUs TRADE DURING APRIL – JULY 2025

- In July 2025, total exports of Goods from EOUs increased by 12% and during April – July 2025, it increased by 8%.
- In July 2025, imports of Goods from EOUs increased by 18% and during April – July 2025, it increased by 21%.
- Trade balance for EOUs increased by 3% in July 2025 whereas it declined by 1% during April – July 2025.

Goods (April – July 2025)

- The highest exports of Goods were for Engineering Goods constituting more than 25% of total exports of Goods from all groups/sectors, which exhibited an increase of 13% when compared to similar period last fiscal. Next was for Drugs and Pharmaceuticals constituting slightly less than 25% of total export of Goods which also increased by 16%.
- In case of exports of Engineering Goods, highest exports were to USA constituting 38% of total exports of Engineering Goods, which increased by 15%. Second highest exports were to Germany constituting 6% of total exports of Engineering Goods which increased by 20%.
- The highest exports of Goods were to USA constituting 34% of total exports which increased by 5%. Next highest destination of exports was Netherlands constituting 5% of total exports of Goods which increased by 15%.
- In case of USA, highest exports were of Drugs and Pharmaceuticals constituting 29% of total exports to USA, which increased by 12%. Second highest exports to USA were of Engineering Goods constituting 28% of total exports to USA, which increased by 15%.
- The highest imports of Goods were for Electronic Goods constituting 32% of total imports of Goods from all groups/sectors, which increased by 41%. Next highest imports were of Machinery, Electrical and Non-Electrical constituting 15% of total imports of goods which increased by 34%.
- In case of imports of Electronic Goods, highest imports were from USA constituting 19% of total imports of Electronic Goods, which increased by 44%. Second highest imports were from China constituting 19% of total imports of Electronic Goods which increased substantially by 82%.
- The highest imports of Goods were from China constituting 25% of total imports which exhibited an increase of 23%. The next highest imports of Goods were from USA constituting 15% of total imports which increased by 27% as compared to same period last fiscal.
- In case of China, highest imports were of Electronic Goods, constituting 25% of total imports from China, which increased substantially by 82%, followed by Organic and Inorganic Chemicals constituting 14% of total imports from China, which remained almost similar as compared to same period last fiscal.
