## FOREWORD

EPCES had published a Special Bulletin of SEZ Trade for 2022-23. It was followed by the first edition of monthly SEZ trade bulletin for combining the data for April and May. Since then, it is being published on monthly basis. This is the monthly edition for SEZ data for July.

This publication of SEZ Trade bulletin is following the advice of Commerce Secretary in his letter to Chairman EPCES dated 2.1.2023 (copy attached) for setting up of a Research Cell within the EPC that would regularly feed into policy inputs and to facilitate the EPCES to as a nodal point to frequently interact with the Department of Commerce and line Ministries /Departments.

Accordingly, EPCES has set up a Research Cell. On the request of EPCES, D/o Commerce has requested NSDL/SEZ Online and DGCIS to make SEZ and EOU data to EPCES. Presently, data in respect of SEZs has been made available by NSDL/ SEZ Online. In fact, data in respect of SEZ as well as EOUs is available with DGCIS because NSDL also sends data in respect of SEZs to DGCIS It is expected that the data both in respect of SEZs and EOUs will be made available by DGCIS to EPCES soon.

Based on the present data made available from NSDL in respect of SEZs, an initial attempt has been made by EPCES regarding the monthly analysis of country-wise, commodity wise EXIM data. Data in respect of exports of Services has also been analysed. Based on the suggestions from stakeholders and the availability of data, the analysis will be further refined and presented.

EPCES is grateful to NSDL/SEZ Online for making available the data in respect of SEZs.

D.O. No. K-12011/1/2020-EPL1
$2^{\text {nd }}$ January 2023

Dear Shri Seth,

The global economy is innately tied to trade, and trade has grown remarkably, completely transforming the global economy. Moreover, about $70 \%$ of international trade today involves Global Value Chains (GVCs), as services, raw materials, parts, and components cross borders - often numerous times.
2. The emergence and persistence of GVCs significantly changes how we develop trade policy. Success in international markets today depends as much on the capacity to import world class inputs as it does on the capacity to export. As such, role of EPCs should not be limited to export promotion alone and it should look at trade in a broader and more comprehensive manner.
3. In this regard, we would encourage EPCs to closely monitor international trade, particularly export decline, import surge, market diversification opportunities, global import demand and prospects, and avenues for GVC participation etc.
4. EPCs may consider developing a Research Cell with more intensive research and market intelligence capabilities within the EPCs that would regularly feed into policy inputs and to facilitate as the nodal point to frequently interact with Department of Commerce and line Ministries/Departments.
5. I am looking forward to your timely response and continuous cooperation in this initiative.

## With regards,

## Shri Bhuvnesh Seth
